A TRIBUTE TO OUR COACH

We, the Mattapoisett Girls' Softball team, wish to show Bill Badgley our appreciation for all he has done for us. He took a bunch of girls who knew little or nothing about softball and made us into a proud and strong-willed team that's hard to beat. He has given us his free time and knowledge when he could be going on a well deserved vacation. Without him we would be nothing!

Here's to you Bill. We love and appreciate you very much!!

With love and best wishes, Your Girls: Mary Crowe, Debbie Drake, Luann Goodwin, Gretchen Hamer, Nicki Hamer, Laura Kellogg, Lindsey Ketchel, Ann LaClair, Beth Lammi, Lillian Poitras, Nancy Ripple, Paula Sawyer, Toni Sylvia, Cherry Wordell.

Last Ditch Trial?

Editorial, D.C.J.

One of our big problems today is that potential leaders who stand for something cannot win election while opponents who'll stand for anything can. In the issue of the Panama Canal, apparently, it mattered little in the Ford vs. Carter contest. Heads we lose - tails we lose.

The Panama Canal is the produce of American genius, technology and determination. Certainly every bit as important is the fact that our past leadership possessed the foresight to guarantee forever the open use of this canal to all of the world shipping. They did this in the only way possible. The United States controls the canal zone; the United States defends the canal zone. If these earlier leaders had been so trusting as to leave the canal in unstable hands how valuable a link would the world have had? Would the United States have been able to fight a Pacific War?

We have heard the argument that if the

canal is not surrendered to Panama that dictatorship will disrupt its operation. Doesn't that make you tremble? Mighty Panama will bring the world shipping between Atlantic and Pacific to a stop. Well, if this is the sort of morality that we face, better to be on the inside holding the canal than be on the outside being held up.

If our treaties are not worth the paper they are written on, why bother to sign another? If the United States is not willing to protect its own interest in an area so vital what country in the world is going to have any regard for anything our present leadership may say or sign? It could lead to a very dangerous miscalculation of this country's will in any area on any principle.

FIRE PREVENTION URGED

Mattapoisett Fire Chief Paul Bradley has organized a campaign of Fire Prevention during the 1977 Fire Prevention Week. Posters throughout the town and flyers urge residents to remove fire hazards in the home and to install fire and smoke detection devices. Since smoke is the principle killer in home fires and since early detection is vital in both escape and in keeping fire damage to a minimum, these smoke and heat sensors make excellent prevention devices. Chief Bradley and his department urge all homeowners to help in the prevention of fire loss. Look around the home and eliminate combustibles.

PARENT EDUCATION CLASSES AT TOBEY

Tobey Hospital will conduct a new series of Parent Education Classes on Tuesday evenings, September 6, 13, 20, 27 and October 4 at 7:30 P.M. in the hospital cafeteria. These Prenatal Classes, held in conjunction with the March of Dimes, are offered so that expectant parents may await the birth of their child with confidence to insure the optimum health of the newborn.

Subjects to be discussed will be prenatal care, growth and development of the child before birth, labor and delivery, and the newborn. Coordinator of the classes is Mrs. Valerie Young, a nurse at Tobey since 1968. Mrs. Young, a graduate of Boston Children's Hospital School of Nursing, is a candidate for a degree in Sociology at Bridgewater College.

by 5 P.M. Monday, October 17, 1977. Several fellowships will be awarded in each field. Applications for visual artists and creative writers will be available in January 1978.

Applicants must submit samples of their work demonstrating a high level of accomplishment. Filmmakers submit up to two films; video artists submit an hour's worth of tape; composers submit two pieces of music; and choreographers may audition or submit a video tape of their work. Panels of out-of-state artists in each field will select the fellowship recipients solely according to the quality of the work. Project proposals are not required of either applicants or recipients.

The Artists Fellowship Program is one of several programs administered by the Massachusetts Arts and Humanities Foundation, Inc., a non-profit organization in Boston that assists individual creative artists in Massachusetts. ARE YOU PREPARED FOR WINTER?

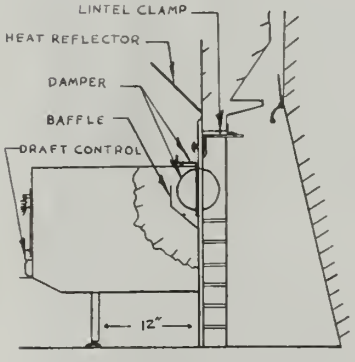
Convert your fireplace to an efficient home heater...with Better 'n Ben's

...BETTER 'N BEN'S THE FIREPLACE STOVE



FIRE BOX: 18" HIGH; 18" WIDE; 24" DEEP
DOOR OPENING: 9" x 13"
WEIGHT: 143 POUNDS
BACK PANEL: STANDARD-
34½" high x 42" wide

Note: This panel easily adaptable to most fireplaces.
Other sizes available on request.

Better 'n Ben's is the most exciting and innovative breakthrough in woodburning stoves since the Franklin.

Uniquely, but simply designed, Better 'n Ben's is placed directly in front of the fireplace opening. The combined stove and fireplace cover panel is securely and safely fastened in minutes so the stove utilizes the existing fireplace flue.

Now, instead of the heat going up the chimney, it is recovered and will provide warmth for large rooms and in many cases, entire homes. It will burn seasoned wood throughout the night.

Homeowner reports on this new stove cite up to 60% savings in fuel oil costs and the kilowatt consumption in electrically heated homes cut more than half.

Better 'n Ben's is attractive in the home and made of sturdy, long-life, heavy, black iron that radiates heat well. It has a broad top to provide a large cooking surface.

Fully guaranteed.

We have a kit available to convert Better 'n Ben's to a free-standing stove for use anywhere.

Also available: See-through Screen Door for viewing fire.
